CATEGORICAL EXCLUSION STATEMENT
NMCI PROGRAM LOCATION INTO B-1482
NAVAL AIR STATION NORTH ISLAND

1.   PROJECT DESCRIPTION:

The Navy Marine Corps Intranet (NMCI) program will be located at B-1482 at NASNI. The location of the program at B-1482 will require interior modifications and the relocation of personnel. The relocation of the personnel will not require a change in the supporting infrastructure. Attachment (1) is an estimate of the number of personnel that will be affected by the NMCI program being located at NASNI.

2.   NEPA REQUIREMENTS:

The proposed project meets requirements for a Categorical Exclusion, as outlined in OPNAVINST 5090.1B CH-2, Chapter 2, paragraph 2-5.1, items a to e. Specifically, locating the NMCI program into B-1482 at NASNI will not, individually or cumulatively:

a.   Affect public health or safety;

b.   Involve an action that is determined, in coordination with the appropriate resource agency, to have the potential for significant environmental effects on wetlands, endangered or threatened species, historical or archeological resources, or hazardous waste sites;

c.   Involve effects on the human environment that are highly uncertain, involve unique or unknown risks, or that are scientifically controversial;

d.   Establish precedents or make decisions in principle for future actions with significant effects; or

e.   Threaten a violation of Federal, state or local law or requirements imposed for protection of the environment.

The proposed project does not meet the description for actions that normally require an Environmental Assessment (OPNAVINST 5090.1B CH-2, Chapter 2, paragraph 2-5.3.2) nor does it meet the requirements for an Environmental Impact Statement (OPNAVINST 5090.1B CH-2, Chapter 2, paragraph 2-5.4.3).

3.   CATEGORICAL EXCLUSIONS:

OPNAVINST 5090.1B CH-2 of 9 September 1999, Chapter 2, paragraph 2-5.2 provides a list of 33 actions that are normally categorically excluded from further documentation requirements of NEPA. Actions that are categorically excluded do not individually or cumulatively have a significant effect on the human environment and therefore, neither an Environmental Assessment nor an Environmental Impact Statement is required. This project is considered to meet the definition of action [d]:

"Relocation of personnel into existing Federally owned or commercially leased space that does not involve a substantial change in the supporting infrastructure (an increase in vehicular traffic beyond the capacity of the supporting road network. To accommodate such an increase is an example of substantial change)."

4.   **AGENCY CONCURRENCE:**

There would be no direct or indirect impacts to environmental resources or safety issues as a result of locating the NMCI program into B-1482. As such, no regulatory agencies were consulted in determining that the action will have no adverse effect on resources listed in OPNAVINST 5090.1B CH-2, Chapter 2, Paragraph 2-5.1.b.

5.   **DETERMINATION:**

It has been determined that the proposed action, in compliance with the stipulations described above, does not individually or cumulatively have a significant effect on the environment and, therefore, neither an Environmental Assessment nor an Environmental Impact Statement is required.
